

Responding to LPFM proposed priority expansion over FM translator service. I listen to K-LOVE via this FM translator and here to voice my concern and opinion over the possibility that an LPFM station could take over and remove K-LOVE from my stations (I listen to 96.9 and 102.3, depending on which part of Ohio I happen to be traveling through).

As a Christian, K-LOVE is extremely important to myself and members of my community. It is a wholesome station, free of offensive on-air personalities, talk/shock radio and offensive lyrics. It is a station the whole family can listen to and not fear what messages are being sent to our children. In this area, we have too many country stations, several classic rock stations, a jazz station, hip-hop, adult contemporary...but only ONE K-LOVE. Christians are a strong and often unheard population, and generally are the first to lose a stronghold to the secular community. I myself want K-LOVE to stay where it belongs...on my listening dial. Should it be removed, I will discontinue listening to radio in all formats and choose to listen to Christian CDs instead.
